The new Australian Fire Danger Rating System is your simplified survival tool to stay safe this bushfire season.	
Did you know fire danger ratings tell you how dangerous a bushfire would be if it broke out, not a prediction of the likelihood of a fire starting in your area? Learn the new system to help you stay safe on days of fire danger risk.	
Living in a bushfire risk area means danger is on your doorstep. The new Australian Fire Danger Rating System tells you what to do to stay safe on Moderate, High, Extreme and Catastrophic days.	
Fire Danger Ratings describe the potential level of danger a community could face should a bushfire start. Use the ratings to understand and act BEFORE a fire starts.
